Hi Brian,

Below are my notes from the meeting this afternoon and attendance. I have notes on who was present in person and who was on the phone if you need it.

There are gaps at the end related to the discussion topics because we were going so fast. I think you were reading from notes, so if you can fill the holes. Sorry I couldn't type that fast and I was trying to review the earlier notes so I'd be ready to report out on follow-up items.

Wow, note clean-up take a long time!

Jen
